NO.3.2 Add Devices

Click "Add Device" or "+" at the top right corner of the App homepage to enter the "Add Device" page.

There are two ways to add device: Add Manually and Search Device.

NO.3.2.1 Add Manually -Bluetooth device - default mode

1. The app supports two configurations: Default mode and AP mode. Click "AP Mode" at the top right corner of the "Default mode" page to switch between modes
2. To select "Default mode", please make sure the indicator light on the smart device is flashing rapidly (blinking twice per second) and then click the button to proceed to the next step
3. If the indicator light is not flashing rapidly, click "Help" to view the instructions

NO.3.2.1 Add Manually -bluetooth device - default mode

Notes: How to set indicator light to rapid flashing:

Step 1 /3

Power on device.
Power off after 10s and then power on

Step 2 /3

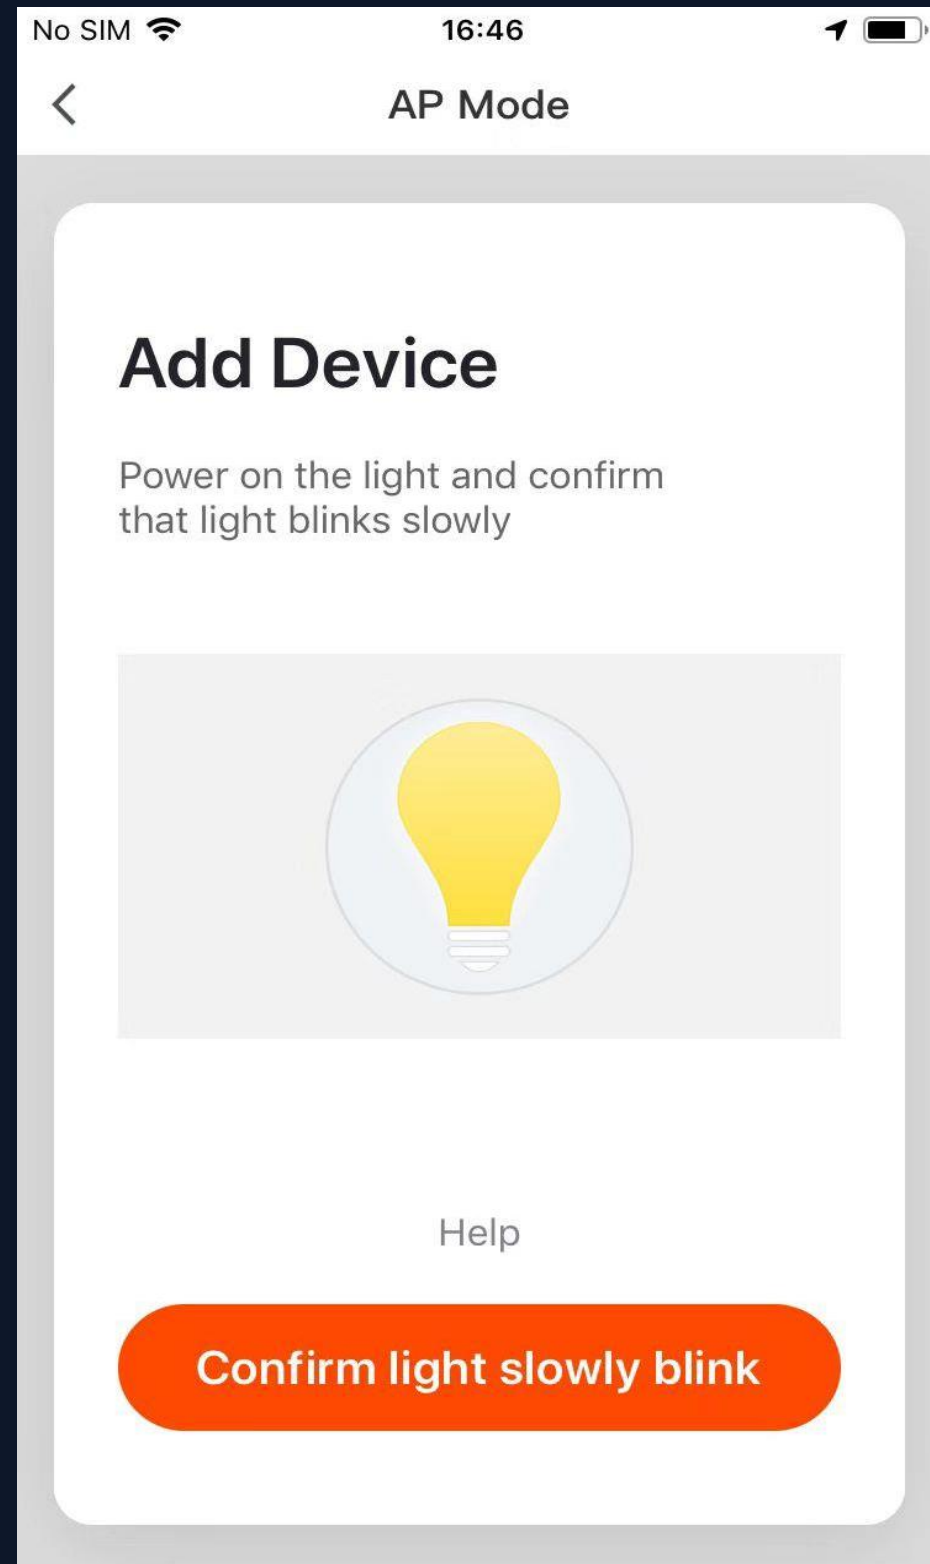

Turn on-off-on-off-on
(Keep time interval not too short, turn off after light is on)

Step 3 /3

Confirm light bulb is now rapidly flashing

NO.3.2.1 Add Manually -Bluetooth device - AP Mode

1. To select "AP Mode", please make sure the indicator light on the smart device is flashing slowly (blinking once every three seconds) and then click the button to proceed to the next step.
2. If the indicator light is not flashing slowly, click "Help" to view the instructions.

NO.3.2.1 Add Manually -Bluetooth device - AP mode

Notes: How to set indicator light to slow flashing:

Step 1 / 4

Power on device.
Power off after 10s and then power on

Step 2 / 4

Turn on-off-on-off-on
(Keep time interval not too short, turn off after light is on)

Step 3 / 3

Confirm light bulb is now rapidly flashing

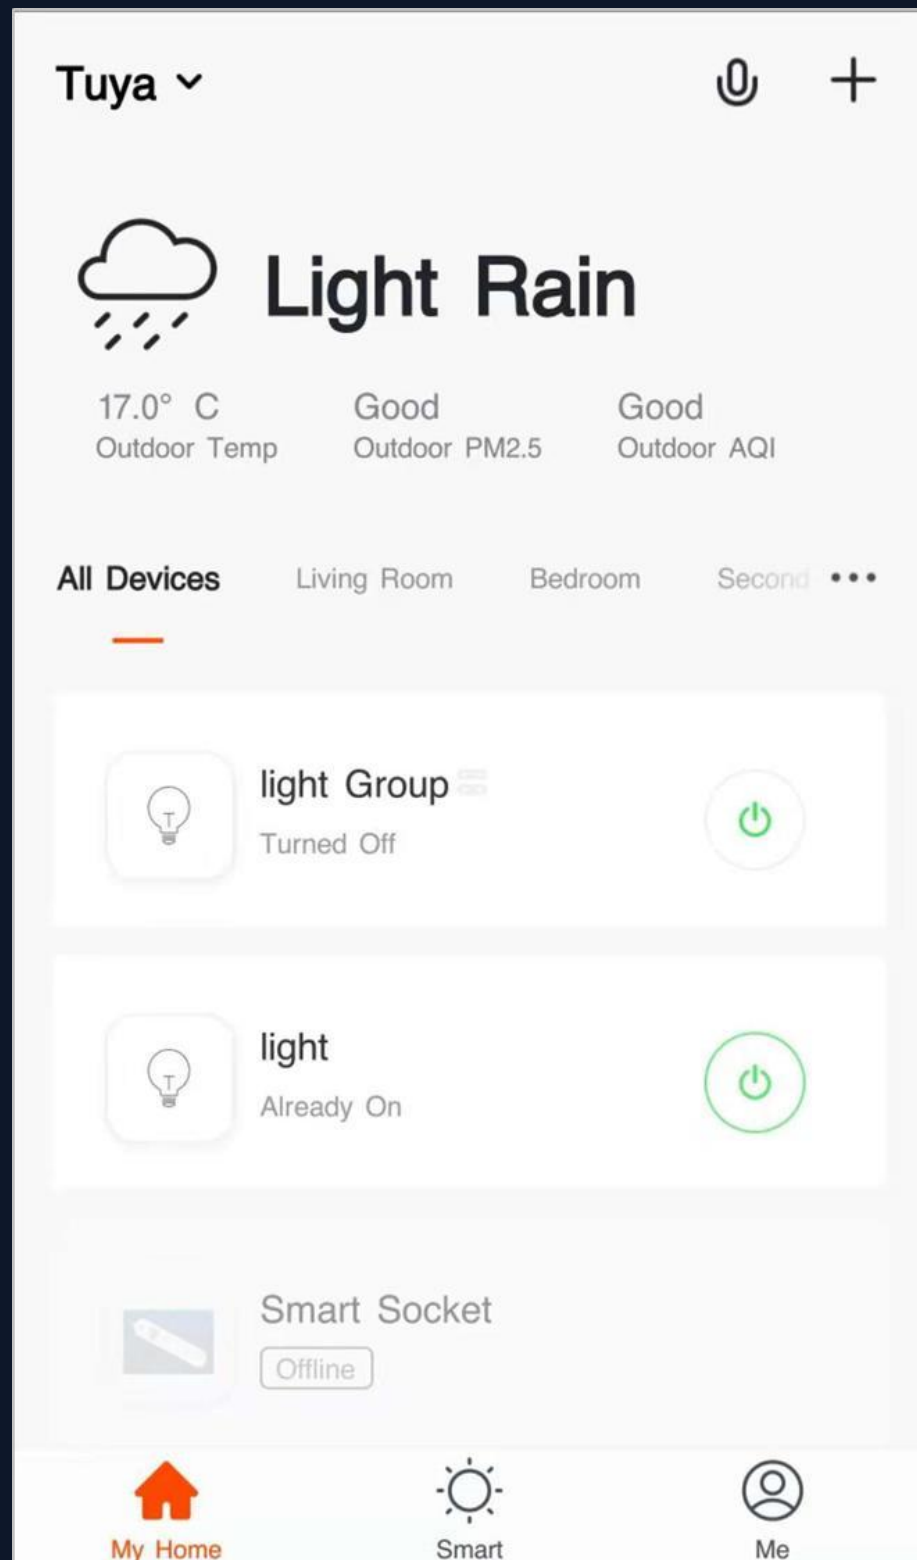

Step 4 / 4

Operate again: Turn on-off-on-off-on
until light is slowly flashing

NO.4 Control Devices - Individual Control

When devices have been configured successfully, the smart devices will appear on the home page. Click to open the control panel for smart devices.

Note:

1. When devices are online, some will support use of hotkeys. Click "Common Functions" to use them
2. When devices are offline, they will appear as "Offline" and will not be available for use

NO.4.1 Control Devices - Individual Control

Open the control panel for devices. For example, Fig. 1 shows the light is off, and only the timer can be accessed in the off mode. Fig. 2 shows the light is on, and scene, color, brightness, and schedule can be configured in the on mode. Click "..."/>

Fig. 1

Fig. 2

NO.4.1 Control Devices - Individual Control

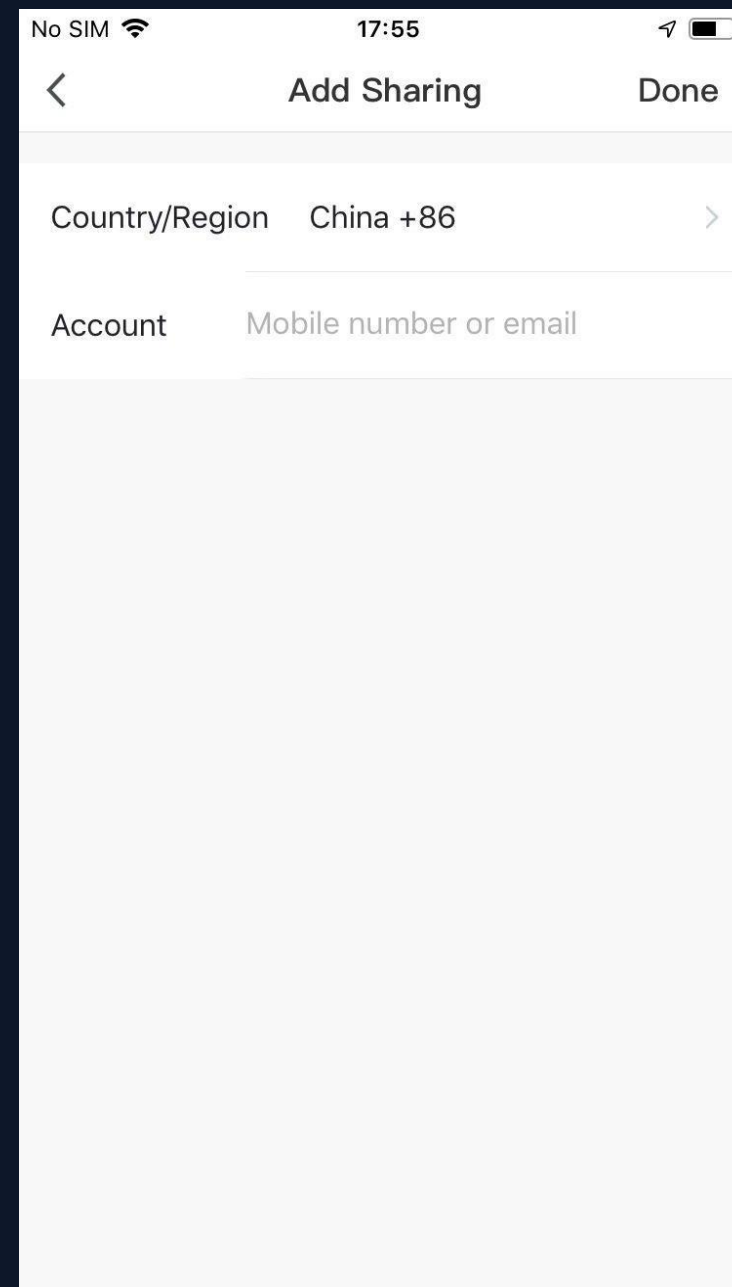

The device modification menu is shown in the figure:

1. Device Name: You can change the name and location of a device.
2. Device Location: You can choose where the device is located, such as the living room or bedroom.
3. Share Device: You can share any individual device with others by entering their mobile phone numbers. (Note: Their mobile phone numbers must be registered with Tuya app accounts.)
4. Create Group: Click and the page will automatically show all devices that have been added and have the same model number. A group cannot be created for devices with different model numbers.
5. Device Information: Check here for: device ID, Wi-Fi signal strength, IP address, Mac address, and device time zone.
6. Feedback: You can submit feedback here on problems encountered during usage.
7. Add to Home Screen: You can add devices to your phone's desktop for easier control of your device.
8. Check for Firmware Update: You can check here for firmware updates.
9. Remove Device: Delete a previously added device from the list of devices.
10. Restore factory defaults: Remove devices and clear all data.

NO.4.1 Control Devices - Share Devices

Click "Add Sharing", enter the account to share devices with, and click "Done" to finish. To stop sharing with an account previously added, press and hold to delete in Android, or slide to the left to delete in iOS.

Note: You can only share devices with whom has the account of the app and registered in the same country/region.

NO.4.2 Control Devices - Group Control

1. Click "Create Group" under "More" on a selected device page, as shown in Fig. 1.
2. The page displays all devices with the same model number and available to be added as a group. Select a device and click "Save", then enter group name and click "Confirm" to finish, as shown in Fig. 2.
3. When a group has been created successfully, the page will be automatically redirected to the group control panel in Fig. 3, where grouped devices can be managed.

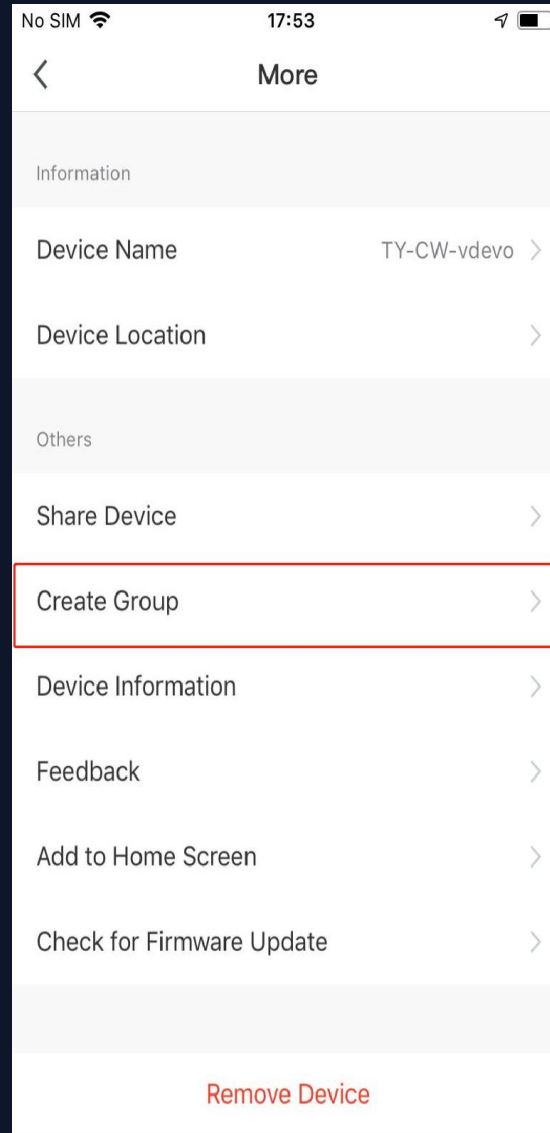

Fig. 1

Fig. 2

Fig. 3

NO.4.2 Control Devices - Group Control

1. Groups that have been created can be viewed on the "Home" page, and managed with hotkeys.
2. Open the group control panel as shown in Fig. 2.
3. Click "..." at the top right corner to configure or dismiss groups, as shown in Fig. 3.

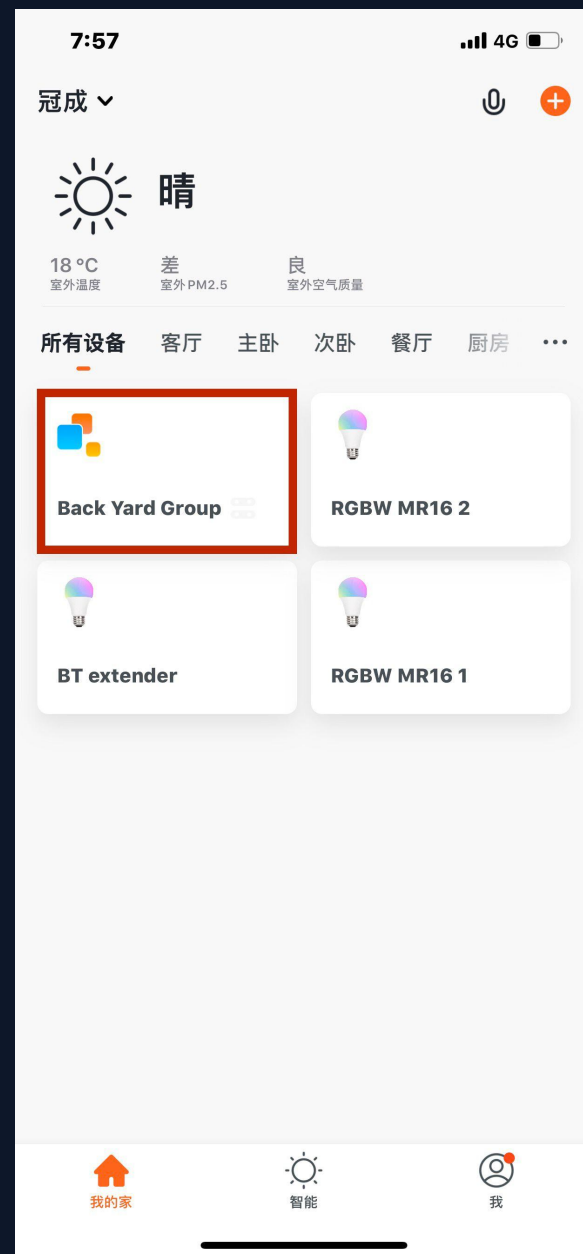

Fig. 1

Fig. 2

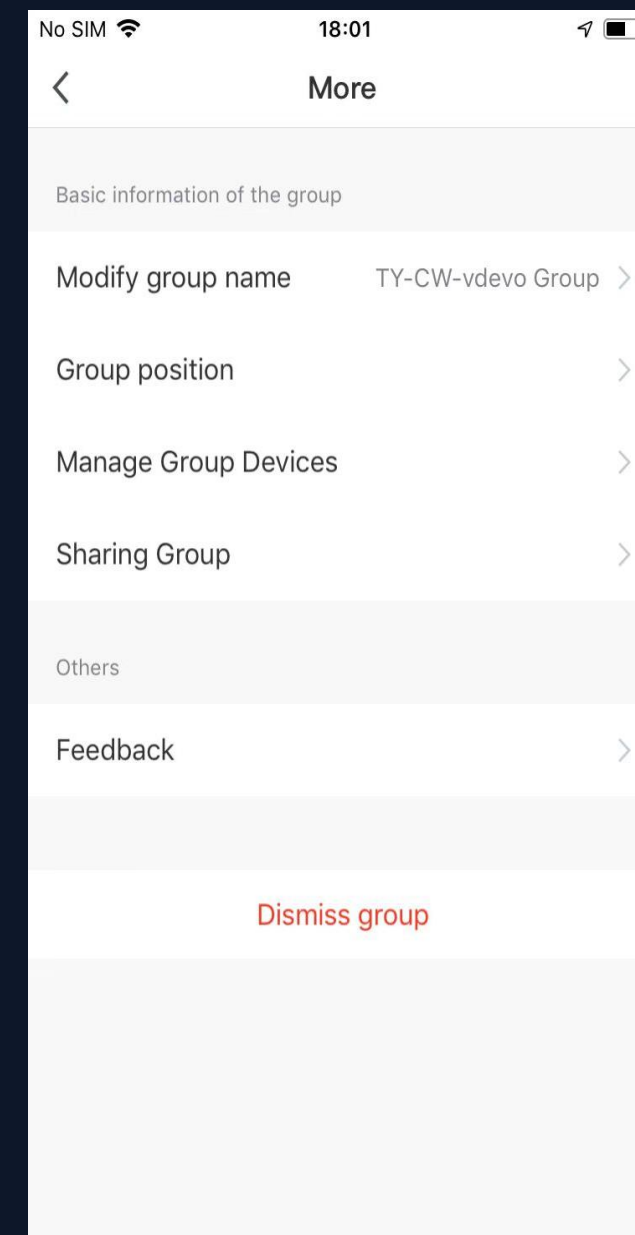

Fig. 3

My Feedback: check the processing results of feedback

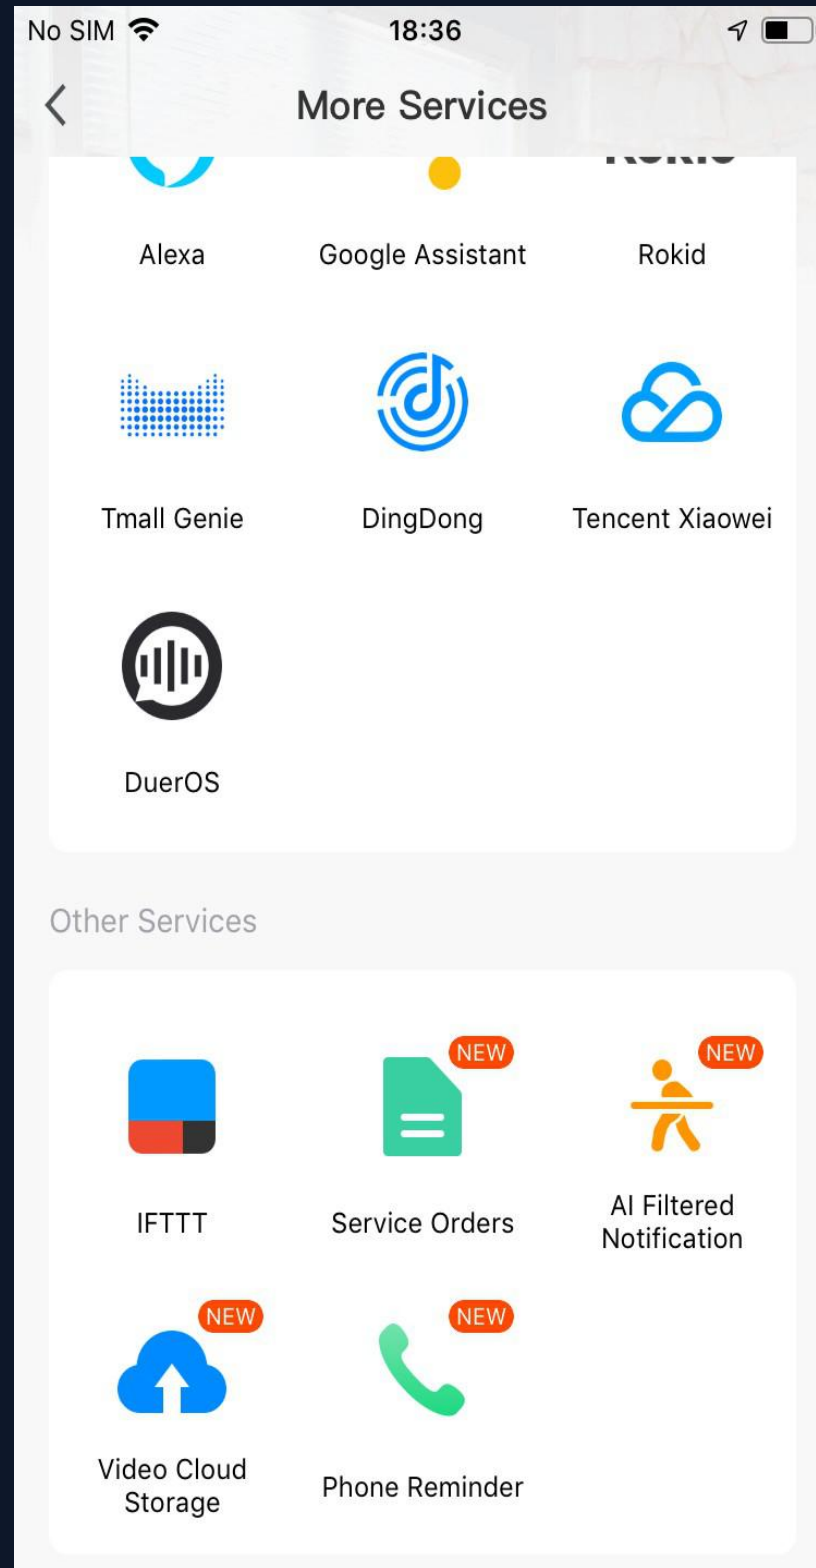

Submit Fault: submit your feedback here on problems encountered during usage

Network diagnosis: network diagnosis helps us solve the problem for you faster. The diagnosis time is about 2 minutes

Suggestion: you can submit your optimization suggestions for the App here

FAQs: contains three types of frequently asked questions :device networking, App use and third-party control

NO.7 “Me” —More Services

1. Voice Services:
you can click on the corresponding speaker icon to see how to connect to it.
2. Other Services:
 - (1) IFTTT: how to connect with IFTTT;
 - (2) Service Orders: you can check the services you have purchased here.;
 - (3) AI Filtered Notification: Once the service is activated, notifications will be filtered by cloud based algorithm before you ever receive them.
 - (4) Video Cloud Storage: Once the service is activated, the device can encrypt and upload the video data to the server, and the user can view the historical video in the App.
 - (5) Phone Reminder: Once the service is activated, when the user-defined scene is triggered, the system will automatically notify the phone numbers on the file (more than one number can be called each time) to better protect you and your family.

Thank You

Notes:

1) All figures display IOS interfaces. Android versions may vary slightly.

2) Products and software are constantly being updated. Data and software interfaces shown here are for reference purposes only. Further changes made will not be separately disclosed
